

Irregular yo

We've been using these verbs throughout the year already. The key difference is that they have a different conjugation in the "yo" form than the other forms.

Decir → digo

Tener → tengo

Venir → vengo

Here's an example. Tener in the "tú" form is "tienes" but in the "yo" form it's "tengo." These verbs are a little harder to memorize because they may have an irregular yo AND a stem-change.

¿Tienes un partido de fútbol hoy?

No, tengo un partido de fútbol el miércoles.

Here are the new verbs we will add to the list of irregular yo.

Hacer = hago

Poner = pongo

Salir = salgo

Suponer = supongo

Traer = traigo
